Academic Qualification

JSS Academy of Technical Education

Bachelor of Engineering in Information Science; CGPA:8.0/10

Bengaluru, India

July 2019 - May 2023

St. Karens High School

High School; Percentage:78.2/100

Patna, India

Mar 2018 - Apr 2019

Major Projects

Anime Website| React, API

- The anime website built using React and the Jikan API offers a comprehensive collection of information about various anime series. Users can easily navigate through the website to explore popular, airing, and upcoming anime titles.
- The Jikan API integration allows the website to fetch data from a reliable source. This includes details such as synopsis, genre, release date, episode count, and ratings, enhancing the user experience and providing a valuable resource for anime enthusiasts.

Prison Management System|C++, RRN

- The system can keep track of information about each inmate, including their personal details, criminal record, and sentence information. It can also manage their housing assignments, job assignments, and medical needs.

Shopper's Junction|React, Redux

- The Shoppers Junction website is built using React and Redux. Redux is used for state management, allowing for efficient handling and updating of data throughout the application.
- The website implements authentication to ensure secure user access, allowing users to create accounts, log in, and manage their personal information.

Skills

Programming C++, HTML, CSS, JavaScript, TypeScript, React, Redux, NodeJs, ExpressJs, Git, SQL, MongoDB

Technical DSA, OOPS, Computer Networking, DBMS

Soft Skills Time Management, Analytical skills, Teamwork, Problem-solving, Responsible

Certifications

- Certification in Mastering Data Structures and Algorithms using C and C++
- Certification in The Complete JavaScript Course: From Zero to Expert
- Certification in The Bits and Bytes of Computer Networking

Achievements

- Secured third position in Blind Coding in Department Fest among 30+ people
- Secured second position in Coding Hackathon
- Funding and sponsorship management at JSS Verve
- In the top 5 of eduTech at the India International Science Festival (IISF) 2021
